

OFFICIALS OF FIRE DEPARTMENTS from central and southern Alberta attended the fire officers training school at Olds Oct. 19 to 24. The school, believed to be unique in Canada, is one of three conducted by the Alberta Fire Commissioner of the Department

of the Provincial Secretary and his staff. An earlier school was held at Vermillion, and another is tentatively scheduled for the Peace River area. Those attending are instructed in management and administration of fire departments, and details in fire fighting procedures.

Emphasis in the program is placed on fire prevention. Shown examining some of the equipment on display at the school are, from left to right, J. Lundy Findlay of Vulcan; Dave Forsman of Barons and Bill House of High River.

Hallowe'en Was "Quietest Ever"

Hallowe'en was favored with good weather this year and although hundreds of youngsters in Vulcan were making their annual "trick or treat" rounds, there was no damage to property and the merry-makers were well behaved as a rule.

"The quietest Hallowe'en we've ever had," was the verdict of Police Chief J. L. Moyer, and he expressed his appreciation of the behavior of the young people of the town. "Other towns apparently had the usual amount of both thoughtless and malicious damage to property," said the Chief Constable, "and although we were well prepared for any trouble that might arise the young people were all orderly and generally behaved well. Please express our thanks to them."

Snow and Cold Weather Bring Foretaste of Winter

Winter struck an early blow at Alberta this week as snow started to fall early Monday evening and was still falling at the time of writing Tuesday night.

Accompanied by 15-mile-an-hour winds, the snow was reported to be drifting badly in spots and all highways were icy and treacherous.

A few fields of wheat and flax still remain to be harvested in the district.

The snow ushered in colder weather, with temperatures well below the freezing point.

Pheasant Hunting Closed This Week

The pheasant season is closed this week and will re-open on Monday, Nov. 9. This is the first time a split season on the colorful game birds has been in effect and is in the nature of an experiment. Provincial game branch officials believe the mid-season "resting period" will bring the pheasants back to their usual haunts and make hunting that much better when the season re-opens on Monday.

Hunting for Hungarian partridge has remained open and remains open until Nov. 23, which is also the closing date for the pheasant season.

Some 900,000 Canadians depend on the fisheries for their livelihood.

Senior Citizens' "Do" Postponed

The effect of the two-day snow-fall are being felt in social circles around town. The Lionettes Club were forced, at the last minute to postpone their Senior Citizens' Night which was to have been held Wednesday night of this week.

Drifted country roads made it hazardous for so many elderly citizens to be travelling at night. The new date, tentatively set by the Lionettes is Monday night, Nov. 30, and further notice in this matter will come from club officials shortly.

50th Wedding Anniversary For Mr.-Mrs. N. Nelson

On Saturday, Oct. 20, Mr. and Mrs. Nels Nelson were honored at a sumptuous dinner at the home of their son and daughter-in-law, Mr. and Mrs. Ed. Nelson, the occasion being their 50th wedding anniversary.

The festive table was centered with a prettily decorated wedding cake, topped with a miniature bride and groom, and flanked by a dainty gold inscribed centre-piece, with the numerals "50" and their names.

The honored couple were presented with a beautiful bouquet of flowers from their two grandchildren, Lola Kay and Norman Nelson and received congratulatory messages from a number of friends.

During the evening both Mr. and Mrs. Nelson talked with their son, Elmer and his family, who live in Regina, Sask. Owing to the ill health of both Mr. and Mrs. Nelson only members of the immediate family and Mrs. Lola Findlay were present.

Mr. and Mrs. Nelson homesteaded at Enchant in 1908 and moved to Iron Springs in 1924, coming to Vulcan two years later. From 1941 to 1950 they resided in Winnipeg, returning to Vulcan then, where they have continued to reside.

Lewis - Maisey Wedding Rites

Francis de Sales Catholic Church in High River was the scene of the 3:00 p.m. wedding Friday, Oct. 16, when Rev. Father Leaver officiated at a ceremony which united in marriage Miss Gail Maisey, daughter of Mr. and Mrs. Lorne Maisey of Herronton, and Francis George, son of Mr. and Mrs. George Lewis of Blackie.

To the strains of bridal music played by Mrs. Van Tigham, the bride entered the church on the arm of her father. She was charming in a white floor-length gown, with the fitted bodice of chantilly lace trimmed with iridescent sequins, tiny seed pearls and lily-point sleeves. The full ruffle trimmed skirt of lace and net billowed over a crinoline. Her chapel veil fell from a tiara studded with seed pearls and she carried a cascade bouquet of red sweetheart roses.

The maid of honor, Miss Camille Stewart and bridesmaid Miss Sharon Maisey, sister of the bride, were identically gowned in pale blue flocked organza with deeper blue cumberbund and sash. Their accessories were blue velvet petal headbands and they carried a crescent of pink carnations.

Walter Wilderman and Peter Steinbach were groomsmen and Larry Maisey, brother of the bride and Gilbert Bradley, ushered the guests. During the signing of the register Miss Leone Daub, cousin of the bride, sang, "Ave Maria."

At the reception in Herronton Hall the bride's table was attractively decorated with a three-tiered wedding cake, the handiwork of Mrs. Robert Nelson, and blue and white streamers and blue tapers. Toastmaster was Murray Strang, uncle of the bride. Max Groves, also uncle of the bride, proposed the bridal toast to which the groom responded. Melvin Malmberg toasted the bridesmaids with Walter Wilderman responding.

For the occasion, the mother of the bride chose a powder blue frock with matching duster. Her accessories were royal blue and her corsage was pink carnations. The groom's mother wore rose lace with matching accessories and a white corsage.

The bride's grandmother, Mrs. Daub, chose a dress of aqua printed silk with matching accessories and a pink and white corsage.

A dance followed in the evening with a record crowd in attendance. For the honeymoon trip to Banff, the bride travelled in a royal blue two-piece dress with matching hat and gloves. Her bag and shoes were black patented leather and her corsage was pink carnations.

Mr. and Mrs. Lewis will reside on their farm south of Blackie. Guests were present from Medicine Hat, Calgary, Champion, Blackie, Vulcan, Mossleigh and Herronton.

"...wherever you go"

One of the happy things about owning a Volkswagen is that wherever you go, efficient service is always close at hand. To serve you, as a Volkswagen owner, Volkswagen maintains a network of 280 authorized service-centres from the Atlantic to the Pacific... a dealer-service organization which is backed by a central 5-million dollar Spare Parts Depot.

A Factory-Training School at Toronto as well as Mobile Schools in the various provinces, ensure the consistently high standard for which Volkswagen mechanics have become known.

And when you think of it, isn't this the kind of service you would naturally expect from the company that was recently awarded the coveted Sperry Award "for advancing the art of transportation."

After all, it was Volkswagen that first mass-produced a car with the engine in the rear... air cooling... torsion bars front and rear for independent suspension. This basic design has been maintained over the years and so has the superb workmanship... just two good reasons why Volkswagen enjoys such a high resale value. "Service wherever you go"... go your way with peace of mind in a Volkswagen.

Needed: Tree Program

This may seem like the wrong time of year to talk about planting trees, but no one can say that the suggestion we are again making now was not made early enough for action to be taken in the spring.

According to our information and knowledge, it is quite a few years since the town of Vulcan has had any sort of a tree planting program within the town itself. The town has been growing—new areas have been subdivided and built on, sidewalks and gravelled streets have been provided—but not one boulevard tree has been planted or provided by the town for the past several years, not even as a replacement for trees that have died out.

The only trees being planted are those purchased by home-owners, with the result that some new streets have a few trees and others have no trees at all.

All cities and most larger town in Alberta have definite tree planting programs, with the town providing and planting the trees, which are then looked after by the home-owner or renter just as the boulevard fronting his property is or should be.

We would like to see a definite policy on this matter established by the town council, with provision made for planting of trees on new streets and replacement of trees where required in the older parts of town.

Correction On Mayor's Address

In last week's report of the address given by Mayor William Munro at the gas flaring ceremony, a few lines were inadvertently left out of the paragraph dealing with Ontario's use of natural gas.

The full and correct text of the address is given below.

For the people of Vulcan who are interested in making our town a better place in which to live, this is what we might refer to as a "Red Letter Day" in our history. During the years since incorporation, many advances have been made, but this is the day we have long looked forward to, and yet, although we are urged by our government to make use of our natural resources, this one almost escaped us.

Now it could very well be that the people of Alberta do not fully realize how fortunate we are to live in a province so rich in natural resources, particularly gas and oil. All provinces in the Dominion are not similarly blessed. The line that brings this gas to us is tied in with a line which carries Alberta Gas to Ontario. In Ontario last year fifty billion cubic feet of gas was used, this year they expect to use ninety billion and next year possibly one hundred and fifty billion. It is significant that of the ninety billion used this year, only sixteen billion cubic feet will be produced in Ontario. Robert D. Macaulay, energy resources minister there, stated only the other day that they have a tremendous need for Alberta gas in Ontario. Ontario wells are shallow, without much pressure and the volume is not great. Alberta wells are deep with tremendous pres-

sure, volume and reliability, he said.

At this time I would like to say that although our own two gas companies failed to see eye to eye in certain matters, we do tender them our thanks and appreciation, and we wish to emphasize that this is especially so with regard to the Canadian Western. This company has co-operated with us in every possible way, and have gone to a great deal of trouble and considerable expense in making it possible for the citizens of Vulcan to enjoy the benefits of this natural gas, while they settle their "Legal" differences later.

In earlier days, Vulcan was considered very fortunate in having large quantities of coal within easy distance. Then in 1951 propane came. This seemed to be a step in the right direction, and it had much to recommend it. However it had one serious disadvantage — it proved to be rather costly.

Now we have a product that is convenient, serviceable and compared to propane, relatively cheap. During a period when money is in short supply, and there is tight money, as is the case to-day, this saving is of some consequence. Finally if we are to judge by the wonderful achievements witnessed here during the last two weeks or so, Vulcan customers can rest assured that the Canadian Western Natural Gas Company will provide service with a capital "S".

Again, as so many have labored to make our dream come true, I could not close without thanking all, who in any way helped to make this moment possible. And now the thrill of a life-time.

"Welcome, natural gas from your home away down deep in the earth and may your presence bring much comfort to the residents of Barons Carmangay, Champion, Kirkcaldy and to those who call Vulcan home."

U.F.A. Co-op President Announces \$700.00 In Prizes For F.U.A. Districts

Mr. George E. Church, President of U.F.A. Co-op has announced details of the U.F.A. Co-op cash awards for Farmers' Union membership week — November 9-14. \$700 in prizes will be shared by the four F.U.A. Districts which show the largest percentage sign-up of farmers in the District.

For example a District with 6,000 resident farmers might sign up 3,000 of them as F.U.A. members. This would be 50%. Another District with 4,000 farmers might sign up 3,000 of them for 75%. The four Districts with the highest percentages share in the cash awards. Prize money will be presented at the F.U.A. Annual Convention in December. Districts which win many use the prize money for any purpose they choose.

In announcing the cash prize program, Mr. Church said he felt it was vital to the welfare of Alberta farmers that an enthusiastic sign-up be made when canvassers call during the week. He expressed optimism that the farmers of Alberta would rally to the support of their Union. Mr. Church urged all farmers, particularly members of the U.F.A. Co-op to take an active part in F.U.A. Week.

In concluding his announcement Mr. Church said "Join the Farmers' Union. Get your neighbors to join. Volunteer as a canvasser. Make your District a winner."

In I Thessalonians 4:14, in the King James Version, "those which sleep in Jesus," is rendered "those who have fallen asleep through Jesus" in the J. N. Darby Translation; and Mr. Kelly translates it "those also put to sleep through Jesus."

The thought in this expression is that the blessed One, even Jesus, had carefully put them to sleep. Death had not conquered them, but they were put to sleep by Jesus—blissful sleep for the body. Their souls were with Christ, and they were "the dead in Christ," but their bodies had been peacefully placed to rest until the resurrection morning. It is as though a mother had placed her worn and tired child to sleep for the night. But let us ever remember that while sleep is blessedly used of the body in this sense, it is never used of the soul, either of the believer or unbeliever. Luke 16 lets us know of conscious bliss or conscious woe even in the souls separated from the body through death. Their destinies are decided on this side of the grave. —A.C.F.

flatters your vanity!

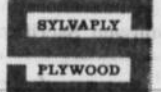

A handsome wall-to-wall vanity storage unit isn't something you'll find in every bedroom — for the simple reason that not too many people know how easy it is to make. Or how beautiful it looks when finished. The free Sylvaply plan, by Peter Whittall, Canada's Mr. Do-it-yourself, leads you by the hand, step by step, with simple words and clear cut pictures. So now you have no excuse for not making this beautiful bedroom vanity for your wife. The free Sylvaply plan is there for your asking at the Sylvaply dealer in your community. Go in and talk to him — see how amazingly simple it is to work with Canada's most popular plywood. Not only will you be proud of your results — you'll want to begin other home improvements, too. Shelves and cupboards and other space-saving units. That's the beauty of using Sylvaply. It makes things so easy to do — and so economical, too!

SYLVAPLY: the engineered miracle in wood!

This tough, light weight, real wood panel is Canada's busiest building material. For a thousand uses in homes, farm and industry, there is a type, grade, thickness and panel size of Sylvaply for every job. Continuing research and quality control have made Sylvaply the leading brand of plywood . . . sold by dealers who know it, know who makes it, can touch for its quality. Look for the brand name on the panel edge — Sylvaply waterproof-glue plywood.
